TECH STACK:

- Front-end: React.js, Redux, Router-dom, Axios, Fetch-api, HTML, CSS, JavaScript (ES6)
- ♦ Back-end: Node.js, Express.js, Mongoose, MongoDB
- ♦ Languages: JavaScript (ES6), Core Java
- ♦ Tools: Git, npm, Postman, vercel, cloudinary storage
- Additional Skills: API Development, User Authentication, Data Modeling, Responsive Design, Crossbrowser Compatibility

SUMMARY:

Full Stack Developer with a Bachelor's degree in Information Technology and expertise in both front-end and back-end technologies. Proficient in React.js, Node.js, and MongoDB, with a strong foundation in building responsive web applications and implementing user authentication and API development. Successfully developed and deployed multiple projects, enhancing user experience and ensuring secure data management. Seeking to leverage my technical skills and collaborative abilities to contribute to innovative projects in a dynamic team environment.

PROJECTS:

- 1. Blog application (backend): [https://github.com/sahilghadi47/Blog-Apis]
- Utilized Node.js and Express.js to develop a RESTful API with JWT authentication, ensuring secure user data management.
- ♦ Leveraged npm, Git, and Postman for efficient project management, version control, and API testing.
- Implemented user authentication and data modeling, enhancing security practices and server configuration.
- 2. Bookstore (Backend): https://github.com/sahilghadi47/book_store/tree/main/Backend/]
- Developed a robust backend system for a Book Store Platform utilizing Node.js and Express.js. Implemented RESTful APIs for user authentication, book management, cart functionalities, order processing, reviews, and admin features.
- Utilized Node.js, Express.js, MongoDB, Mongoose, JWT for authentication, and RESTful API design principles.
- ♦ Designed and implemented controllers and middleware for handling authentication, CRUD operations on books, user cart management, order processing, and review functionalities.
- Successfully build a scalable backend solution that supports seamless frontend interactions, contributing to enhanced user experience and operational efficiency.
- 3. React Projects: [https://github.com/sahilghadi47/React-JS/]

Weather Application: [https://react-js-mudo.vercel.app/]

- → Developed a weather application providing real-time data using React, Vite, and Tailwind CSS for a seamless UI/UX.
- → Utilized React, Vite, and Tailwind CSS to ensure rapid development, efficient builds, and visually consistent design.
- ♦ Integrated API to fetch and display weather data with dynamic icons for different conditions, enhancing user experience.
- → Technologies Used: React, Vite, Tailwind CSS, Axios, Lucide React.

EDUCATION:

Bachelor of Science in Information Technology

August 2020 - April 2023

B. N. Bandodkar College of Science at Thane, Maharashtra

Bachelor of Science in Information Technology, B.N. Bandodkar College of Science, University of Mumbai (August 2020 - April 2023). Gained proficiency in Java, JavaScript, web development, and databases like MySQL and MongoDB.

VOLUNTEER:

National Cadet Corps:

August 2020 - March 2023

- Represented Maharashtra directorate at Republic day camp at Delhi in January 2023
- ♦ Held the rank of Cadet Captain for the 1 MAH Naval Unit in Thane.
- Participated in various leadership and training activities, enhancing teamwork and discipline.
